FORENOON ON THE EXCHANGE

Tintic Stocks Attracted Attention But Trading Was Dull All Along Line.

BECK TUNNEL MOVES OFF.

But Later Recovers-Nothing Doing Among Unlisteds-Closing Quotations.

The early sessions of the Salt Lake Stock & Mining Exchange today were not very animated. The trading was confined to fewer stocks than usual, yet the participation of Beck Tunnel brought the totals up pretty well. With two exceptions, the business was all done in the Tintic list. Beck Tunnel sold at the beginning, but recovered, closing on th sale of 700 shares at \$2,121/2. Colorado opened weak and also improved, Crown point did likewise, but Sloux Consolidated continued sluggish and with little inclination to move for-ward. South Columbus dropped to \$2 a share, while Mountain Lake remained

a share, while Mountain Lake remained steady around 73 cents.

The unlisted stocks were inactive and no sales of any kind were reported. An effort was made to bring Ohio copper out at \$4.50, but failure was the result. However, the stock was offered at \$4.75. Uintah Treasure Hill was some stronger and indications point to a higher market, particularly, if the deal looking towards a coalition with the Creole company goes through. The closing quotatinos and sales were:

MUNCY CREEK MINES. Tonopah Men Have Deal Pending for Purchase of Claims.

Purchase of Claims.

Judge Henry Bush of White Pine county, Nev., has returned to Ely from Muncy creek, where he has been with a couple of Tonopah men. Fletcher and Jones, to look at his mining property in that section of the county. Judge Bush returns more enthusiastic than ever over Muncy creek. Mesrs, Fletcher and Jones went out with a view of making a purchase of Judge Bush's three patented claims. There is 2,000 tons of high grade ore ou the dump. Fletcher and Jones closed a deal for the Land Deposit and 30-odd other claims in the district with Clayton and Bassett for a figure that is entirely satisfactory to the sellers, but as yet the sum agreed upon is a secret. Judge Bush reports that Fletcher and Jones have a deal pending for his three claims, and that he will probably sell. While at Muncy creek the Bush party lived on mountain trout at the Hotel Muncy, kept by Mrs. Clayton. They had a most delightful trip and Judge Bush says that he enjoys an auto now and scorns to ride in anything else. He left for Hamilton this morning in the Fletcher and Jones machine. Fletcher and Jones will return to Muncy inside of 10 days.

LAKESIDE COPPER.

Experiments With Leaching Procress Being Made in Los Angeles.

Being Made in Los Angeles.

H. E. Baker, president of the Lakeside Copper company, operating a property on Promontory Point west of Ogden, is in Los Angeles, where he is witnessing the trying out of a leaching
process on copper ore shipped from the
company's mine several weeks ago. If
the method proves successful, steps
will be taken towards the erection of a
plant at the mine. Recent letters received from Mr. Baker indicate that he
is well pleased so far and is confident
that results will come up to all expectations.

NEVADA BULLION.

State Will Receive Much Revenue From This Source.

From This Source.

James Nevin, state bullion tax collector and N. W. Roff, state auditor were in Goldfield this week, says the Goldfield News, coming over from Tonopah to which city they had been called to examine the accounts of the Tonopah Mining company, to settle a dispute regarding the amount due the state from that company. They found that there was still due the sum of \$6,000 from the last quarter's production. The account will be settled at once.

"From present indications," said Mr. Nevin, "the bullion tax from the Goldfield district will run well into the six figures this year. We have no special business but just came over here to look around. This district is in splendid shape and in fact the entire state presents splendid prospects. I believe that the present year's production will far exceed the expectations of many persons who have not kept closely informed in regard to the great activity in mining in both the northern and southern portions of the state. I think that many of the operators in the Goldfield district will be surprised by the returns from this district this year." returns from this district this year.'

GOES TO LA SAL.

Utah County People Looking Over Eastern Utah Copper Field.

On their way to make a thorough investigation of the Sa Sal copper field, a party of prominent mining men passed through Price Monday to spend the week in that district, says the Carpassed through Price Monday to spend the week in that district, says the Carbon County News. The party consisted of Jacob Evans, president of the company that I has been developing the claims there; J. F. Van Wagoner, secretary of the company; J. H. McEwan, who has options on a large amount of stock, and D. H. Roberts and F. T. Roberts, who are interested in the proposition. Jacob Evans and J. H. McEwan, of Provo, are recognized as hustlers in the mining world, and men who are in the business for the money there is in the development and production of the mines rather than for what may be gained from exploiting the property and floating stocks. The company has had several men on the ground engaged in development work for the last six months, and favorable reports of the progress and showing of ores have been made. This, however, is the first personal investigation of the property since the development work was well under way. The interest taken in the district by work men as Mr. Evans and Mr. Mc. velopment work was well under way.
The interest taken in the district by such men as Mr. Evans and Mr. McEwan gives good foundation for the helief that the La Sal district will be developed to the full extent of its value, and that in a few years it will come in for the attention of mining men from all over the state as a rich pro-

MINERS ENDORSE STRIKE.

Change Room Question Will Be Fought Out at Goldfield.

At the meeting of the Western Federation of Miners held last Tuesday night, the walkout of the miners of the Mohawk mine was indersed, says a Goldfield special to the Tonopah Bonanza. This means that no union man affiliated with the miners' union can be employed on the famous Mohawk. Thirty-five miners employed on the Comty-five miners employed on the Com-bination, another of the merger mines, also walked out, in consequence of the completion of the change room on that

The change room on the Red Top will be finished in about a week, when, it is supposed, the men will walk out from

supposed, the men will walk out from that property.

The action of the union doese not look good to the people in the town, and it was a surprise to most of them. It was the general impression that the miners would not sustain the men of the Mohawk, for the reason that the installing of the change rooms was part of the contract under which work was resumed at the close of the long strike in the spring.

The operators say that there will be The operators say that there will be no change in their program, and that the change rooms will have to stand, no matter what the action of the miners' union. This places a most serious phase on the situation, for it is taken to mean that the Mohawk will resume work, if not with their old men, with new hands.

new hands.

Neither George Wingfield nor General
Manager Finch is here, but the former
is expected by the end of the week.
Whether his coming will make a differonce is problematical, as this is a matter which is in the hands of the Nevada dustrial association. It is feared by some that this may the beginning of another strike or a

CONSTRUCTION AT GARFIELD PLANT

The Work of Enlarging Smelter Is Progressing at a Satisfactory Pace.

READY BY THE END OF YEAR

MacDougal Building-Capacity

a large force engaged in construction at the Garfield plant which is already producing close to 2,000,000 pounds of copper metal monthly out at the south end of the Great Salt Lake. The announcement was made a good many months ago that the plant would be increased in size and would ultimately handle more than as much again ore than it is handling at the present time, The work of enlargement has been progressing for some little time and it was learned today that the foundations for the new MacDougall roaster building has been completed, those of he west extension of the main buildng are half finished, two of the converter stands have been completed, two

The initial unit of the Garfield smelter was completed last year and for the past six months has been treating an average of 1,200 tons a day. Enlargement of the plant has been a matter of necessity owing to the rapid growth of the company's business which has been greatly augmented by the activity being displayed by the Boston Consolidated and Utah Copper companies at Bingham. Within a few months' time the demand for more smelting capacity will be more apparent, especially so after the mills of the last named companies are completed and get down to business.

It is expected that the Garfield smelter in its enlarged form will be ready for commission by the beginning of the year, but is very doubtful indeed, if it will be blown in at that time-unless there is a radical improvement in the fuel situation and in the way of transportation facilities to bring the ore to the places for reduction from the mines of Bingham. The initial unit of the Garfield smel-

mission.

die. Every moment a new whistle was breaking out from a different part of the camp, and the men at the mill were at a loss to account for the dem-

were at a loss to account for the demonstration.

The other mines had not been informed by them, and they were not going to give a signal until the stamps were dropping today. The work that was done yesterday consisted mainly of crushing, and ore was being crushed until 11 o'clock last night. Vice President Dunlap had informed Chris Malatesta and E. B. Cushman that he was going up the hill and that the machinery was to be set in motion. Messrs Malatesta and Cushman got busy and communicated with one or two of the mines, with the result that the whistles were soon going in unison with the mill.

MACMILLAN'S LEASE.

James A. Pollock & Co., bankers and brokers, furnished the following quota-tions on Nevada mining stocks, from San Prancisco today:

The smelting companies were in receipt of no quotations on silver to-day, but Pollock & Co. claimed to have advices to the effect that the day's quotation is 67% cents. The week's settlements for casting copper are being made on the basis of 18 cents and cathodes at 18½.

MONTANA TONOPAH.

New Mill Has Been Placed in Com-The mill of the Montana Tonopah

tree mill of the Montana Tonopan turned over its wheels yesterday afternoon for the first time, and the big plant on Mount Oddle was a mill in reality, says the Tonopah Bonanza.

Every whistle in the camp sounded its hoarse or shrill note, as it happened to be fixed in that line, and people rushed out into the streets, wondering what was up. The news spread quickly enough and all eyes were turned toward the new structure on Mount Oddle. Every moment a new whistle was breaking out from a different part of

the whistles were soon going in unison with the mill.

The completion of the big mill forms a new era in the history of Tonopah. True, it is not the first mill to have been erected in the camp, but it is the most perfect of its kind, and it will revolutionize matters at the Montana Tonopah. It will increase the output of the mine to a considerable degree, and it will turn into money the thousands of tons of ore on the dumps and in the mine, which are of too low a value to be shipped.

President and General Manager Charles E. Knox, Vice President R. P. Dunlap, Supt. E. A. Collins of the company and F. L. Bosqui, designer of the mill, were all interested spectators of the starting up of the machinery, and

the starting up of the macshinery, and were much gratified at the success at-tuined yesterday.

The ore will be ready for the stamps The ore will be ready for the stamps this morning, and sometime today the work of reduction will be commenced and continued. There will be only 20 stamps of the 40 to drop for awhile, but everything as far as the company is concerned, is ready for the full operation of the plant. It is the power that is lacking, but the electric company promises that part of the work will be remedied as quickly as possible.

Former Salt Laker Secures One on

The Laguna Mine.

J. H. MacMillan, a former Salt Lake newspaper reporter, and George B. Halleran of Goldfield, have organized the Mohawk Red Top Lease company to take over the Morrison lease on the Miss Jessie claim of the Laguna mine at Goldfield. Work is now under way and Supt. Taylor is firmly of the opinion that the Mohawk Red Top will beat the record as a producer, made by the Mohawk Jumbo. As Mr. Taylor has charge of the work on the latter property also, his prediction is worth noting. The shaft, which is down 180 feet, has been unwatered and sinking will begin at once. The lease is equipped with one of the best plants in the district, including a 75-horse power hoist and a fifty-foot gallows frame. The Laguna Mine.

SAN FRANCISCO MARKET.

O'Briens as a defendant before the bar for engaging in a conspiracy, is one that has perturbed members of that paper's staff very much.

A. F. Philips, the veteran city editor of the paper issued a signed statement today making a general declaration of innocence of any connection with the case, resented an insinuation that he had gathered from the "News" that a reference to "Mr. Phillips of the Tribune" might mean him. The Mr. Phillips referred to, who was given full details of the McWhirter robbery at the time it occurred, is Edward A. Phillips, who spells his name with a double "I," and who is well known ag the police reporter of that paper, who entered the office of Chief Sheets while the McWhirters were waiting for Bell to return with the \$1,000 it was decided to give back, and who recited to the chief the details of the robbery, only to be silenced with a smile and IN THE DISTRICT COURT, PRObate Division, in and for Sait Lake Courty, Stateof Utah. In the matter of the estate of John E. Cox, Decassed, Notice.—The petition of Marina E. Cox, administratrix of the estate of John E. Cox, deceased, praying for an order of sale of real property of said decedent, and that all persons interested appear before the said Court to show cause why an order should not be granted to sell so much as shall be necessary, of the following described real estate of said deceased, to-wit: only to be silenced with a smile and a shake of the head.

This was the only instance in which the details of the \$10,000 robbery passed into the hands of a newspaper representative. The Tribune had one of the most important stories of the year year. most important stories of the year, yet it was not printed "for its lack of news value." and the McWhirters were urged by Chief Sheets to rush the money into their peckets off his desk "before any more of those newspaper men should come in." He knew they were on other papers as the only scarce be could trust. come in." He knew they were on other papers, as the only paper he could trust to suppress the story was known to be in possession of it. So far interest in Sheets, Raleigh, and the gang of bunko men has overshadowed interest in the role played by the Tribune during the critical period of the robbery and the exposing of the methods used to accomplish it. Now, as public attention centers more completely on that paper, the conviction is growing that its rank is exactly on the level with Sheets, Raleigh, and the former defendants before the courts.

much as shall be necessary, of the following described real estate of said deceased, to-wit;

All of lots 6, 7, 8, 9, 16 and 11, in block one of South Belmont, a subdivision of lot 7, block IT, 5-acre plat "A." Big Field survey, all being situated in the City and County of Sailt Lake and State of Utah, has been set for hearing on Saturday, the 7th day of September, A. D. 1907, at 16 o'clock a. m. at the County Court, in Sailt Lake City, Sait Lake County, Utah.

Witness the Clerk of said Court, with the seal thereof affixed this 21st day of August, A. D. 1907.

(Seal) J. U. ELDREDGE, JR., Clerk, By W. H. Furnsworth, Denaity Clerk, P. T. Farnsworth, Jr., Attorney for Petitioner.
